

Construction Client action saves lives, money & reputations

Webinar + open forum | Weds 2 Dec 2020 | 11.00-12.00 | Teams

CCLG & CLOCS invites you to a free webinar. Hear from CLOCS Champions - University of Warwick and Willmott Dixon - on how 'Construction Client action saves lives, money & reputations'.

- Hear from people successfully implementing **safer standards** with CLOCS.
- Who, what, when, where, and why: discuss **practical issues** when implementing CLOCS.
- **Open forum** - ask your questions and share your experiences.

Speakers include:

- **University of Warwick** - Mark Evans, Health and Safety Manager. Mark has recently been working with another CLOCS Champion, University of Manchester.
- **Willmott Dixon** - Ben Stoodley, Head of Health & Safety (Midlands), and Nick Preedy, Operations Manager.

Open to all but particularly useful for construction clients.

Why CLOCS? Every year over 5,500 pedestrians, pedal cyclists and motor cyclists in Britain are killed or injured in collisions with vehicles common in construction.

Support for CLOCS is growing with the UK Construction Minister, Presidents of RTPI, CIOB, ICE, APS & Build UK as well as 350+ CLOCS Champions now committed to the national CLOCS Standard.
